NEW MEXICO LIBRARY DIRECTORY AND LIBRARY STATISTICS 1994

The statistical report is incorporated into this directory which is the last section in this publication.

The 1994 New Mexico Library Directory includes public, academic, New Mexico state agencies which have libraries, special/institutional, school libraries and library associations. A separate page lists the hours the public libraries are open to the public.

New Mexico Library Commission, New Mexico Advisory Council on Libraries members, State Library staff, and a list of certified librarians are included. Two cross indexes of librarians and the library they are associated with, and added this year is the second index consisting of the name of library and its location.

The first section lists cities alphabetically, with public, academic, New Mexico state agencies which have libraries, the special/institutional libraries arranged alphabetically under city, village or town. In the second section school libraries are arranged alphabetically by city, village or town.

The abbreviated E-Mail Code (Electronic Bulletin Board) is located after the telephone number for institutions that utilize electronic mail, and includes FAX numbers.

Libraries listed in the directory were asked to provide the information for this publication. Every effort has been made to prepare an accurate directory with up-to-date information. We request that any inaccuracies that are found be brought to our attention. Please use the form included in this directory for that purpose.

This directory 🕮 is available upon request on computer disc, in braille and in large print.

CERTIFIED LIBRARIANS

The State Librarian is authorized to issue certificates to librarians by prescribing and holding examinations or by requiring the submission of credentials to establish qualifications.

A permanent professional librarian's certificate is issued without examination to an applicant who has a graduate degree in library science from an accredited library school, and is otherwise qualified under rules and regulations of the State Library. This certificate is required for the chief librarian of any public library serving a municipality or other political subdivision with a population in excess of 15,000 and for the chief librarian of any state agency or state-supported institution of higher education.

Fiscal Year 1992 - 1993 Income

The charts on these pages reflect the amount of income from all sources, local, county, state, federal, and other. Other includes gifts, and donations received in the current year, interest, library fines, and fees for library services. Some library's received no State aid, while many did not receive county money.
